01 WHO WE ARE

About DESWA

2022	6	VAT	100%
Incorporated	Core electrical services	Registered & active with KRA	Kitui contract completed and certified

DESWA ENGINEERING (K) LIMITED is a Kenyan electrical engineering contractor based in Thika, Kiambu County, serving public and private clients.

We deliver electrical works from design and consultancy through installation, testing and handover. Our work covers power line construction and maintenance, street and solar lighting, special installations for commercial and industrial sites, and domestic installations.

We work for county governments, infrastructure companies and private developers, and we take responsibility for every project from site assessment to commissioning.

Leadership

DESWA is led by its founder and director, **Dennis Syengo Wambua**, who oversees project delivery and client relationships.

DESWA site team at a transformer installation

TRACK RECORD

Solar street lighting for the County Government of Kitui

Supplied and installed solar-integrated security lights at Yiuku Market, Endau. Certified complete and paid in full. Contract, completion certificate and payment letter are included at the back of this profile.

Contract sum	**KES 1,091,000**
Contract period	**8 weeks**
Practical completion	**11 June 2025**
Status	**Completed & paid**

02 WHAT WE DO

Our services

Six electrical services, from medium-voltage power lines to domestic installations.

01

Power Line Construction & Maintenance

Construction, extension and maintenance of LV and MV power lines and network connections.

- Overhead line construction
- Power extensions and connections
- Pole, conductor and equipment installation
- Network maintenance and upgrades

02

Street Lighting

Supply, installation and replacement of street and security lighting for counties, estates and commercial sites.

- Solar-integrated street lights
- Grid-connected street lighting
- Market and public-space lighting
- Maintenance and replacement

03

Solar Installation

Solar PV systems for homes, institutions and businesses, including off-grid and backup power.

- Solar PV design and installation
- Battery storage systems
- Hybrid and off-grid systems
- Solar pumping and lighting

04

Special Installations

Electrical installations for sites with specialised requirements.

- Petrol stations
- Quarries
- Factories
- Swimming pools

05

Domestic Installation

Wiring and electrical installations for residential buildings and developments.

- New building wiring
- Distribution boards
- Lighting and power points
- Inspection and fault repair

06

Electrical Consultancy

Engineering advice and technical support for power projects.

- Power connection consultancy
- Load assessment and design
- Factory acceptance testing
- Inspection and compliance

03 PROCESS

How we work

Every project follows the same six stages, from first site visit to handover.

01
Site Assessment
Site visit, load and route assessment, and a clear scope agreed with the client.

02
Design & Quotation
Technical design, bill of quantities and programme matched to the scope.

03
Procurement
Materials and equipment sourced to specification, with factory testing where required.

04
Installation
Works carried out by our site team under direct supervision, with safety controls in place.

05
Testing & Commissioning
Systems tested and verified before energising and handover.

06
Handover & Support
Completion documentation, client inspection and after-sales support.

04 STANDARDS

Safety & quality

Electrical work carries real risk. These controls apply on every DESWA site.

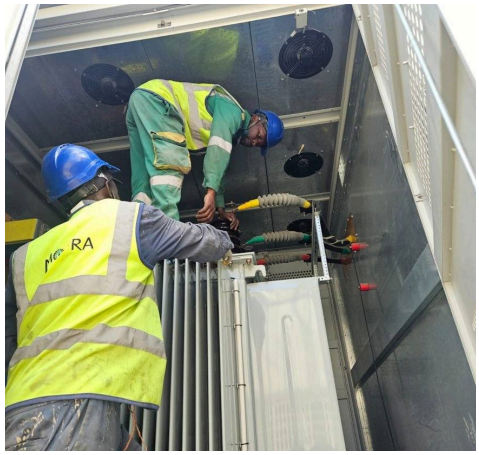

01 **Safe Isolation**
Lock-out and tag-out before work on any electrical system, and verification that circuits are dead.

02 **Work at Height**
Controls for pole and structure work, including harnesses, crane-assisted access and exclusion zones.

03 **PPE on Every Site**
Hard hats, reflective clothing, insulated gloves and safety boots for all personnel.

04 **Testing Before Energising**
Insulation, earth resistance and functional tests before any system is handed over.

05 **Quality Materials**
Materials and equipment sourced to specification, with factory acceptance testing where required.
